

# TendencyTracker

The most efficient way to compile tendencies through out the season.  
 TendencyTracker uses your existing keywords or tags to generate charts and listings of your tendencies or your opponent's tendencies.  
 All reports are generated in a web page format, so you can immediately post them to your web site.  
 TendencyTracker can be sold separately or fully integrated into UltraMotion.

## Football

The screenshot shows the AdminTAVA interface with a report window titled "Report9292002222946.html". The report contains a table with the following columns: Row, Possession, Comment, Down, Distance, Hash, Field Position, Formation or Front, Formation Strength, Play or Coverage, Play Direction, and Result.

Row	Possession	Comment	Down	Distance	Hash	Field Position	Formation or Front	Formation Strength	Play or Coverage	Play Direction	Result
2	Defense		1st	X-Long (10+)	Right	Oven (20-40)	5-2	Left	Cover 2	Left	+1
16	Defense		3rd	Long (7-9)	Middle	Oven (20-40)	4-4	Left	cover 2	Left	+3
